# MATERIAL SAFETY DATA SHEET (MSDS)

Safety Data Sheet in 16-section GHS format

**DOOHA Co., Ltd.**

Date of first issue: April 4, 2026 | Revision: Rev. 2 (September 21, 2026)

## 1. Identification of the Product and Company

| | |
|---|---|
| **Product name** | CNT CONDUCTIVE TILE |
| **Recommended use** | Electrostatic discharge (ESD) control - conductive floor tile |
| **Restrictions on use** | Not applicable |
| **Manufacturer / Supplier** | DOOHA Co., Ltd. |
| **Address** | 9, Sangsin-gil, Jincheon-eup, Jincheon-gun, Chungcheongbuk-do, Republic of Korea |
| **Emergency telephone** | +82-43-532-8024~6 |

## 2. Hazards Identification

**Classification**

Not classified as hazardous in accordance with the Korean "Standards for Classification and Labeling of Chemical Substances and Material Safety Data Sheets" (Notice of the Ministry of Employment and Labor).

**Label elements, including precautionary statements**

| | |
|---|---|
| **Pictogram** | Not applicable |
| **Signal word** | Not applicable |
| **Hazard statement** | Not applicable |
| **Precautionary statement - Prevention** | Not applicable |
| **Precautionary statement - Response** | Not applicable |
| **Precautionary statement - Storage** | Not applicable |
| **Precautionary statement - Disposal** | Not applicable |

**Other hazards not resulting in classification**

The product is a solid molded article and does not generate dust under normal use. However, cutting, grinding, or drilling may generate fine dust (containing calcium carbonate, PVC, carbon nanotubes, etc.). Avoid inhaling dust.

## 3. Composition / Information on Ingredients

| Chemical name | CAS No. | Content (%) |
|---|---|---|
| Polyvinyl Chloride | 9002-86-2 | 20~30 |
| Calcium Carbonate | 471-34-1 | 50~80 |
| Eco-DEHCH (plasticizer) | 84731-70-4 | 6~15 |
| Carbon Nanotube | 308068-56-6 | 2~5 |
| TiO2 (Rutile) | 1317-80-2 | 2~5 |
| Barium stearate | 6865-35-6 | < 1 |
| Zinc stearate | 557-05-1 | < 1 |

## 4. First-Aid Measures

No special measures are required under normal conditions of use. If exposed to dust generated during processing, take the following measures.

| | |
|---|---|
| **Eye contact** | Rinse with plenty of clean water. If irritation persists, seek medical attention. |
| **Skin contact** | Wash with soap and water. |
| **Inhalation** | Move to fresh air. If symptoms persist, seek medical attention. |
| **Ingestion** | No special measures required. If discomfort persists, seek medical attention. |

## 5. Fire-Fighting Measures

| | |
|---|---|
| **Suitable extinguishing media** | Carbon dioxide, foam, water spray, etc. |
| **Hazardous combustion products** | Carbon monoxide (CO), carbon dioxide (CO2), and hydrogen chloride (HCl) may be generated on combustion. |
| **Protection of fire-fighters** | Wear self-contained breathing apparatus and appropriate protective equipment. |

## 6. Accidental Release Measures

No special measures are required. Clean up dust and debris generated during processing without raising dust (vacuum or sweep up) and dispose of in accordance with disposal regulations.

## 7. Handling and Storage

| | |
|---|---|
| **Handling** | During processing (cutting, grinding, etc.), minimize dust generation and avoid inhaling dust. |
| **Storage** | Store in a cool place. Avoid moisture and direct sunlight. Keep away from ignition sources. |

## 8. Exposure Controls / Personal Protection

| | |
|---|---|
| **Exposure limits** | No exposure limits established for the product itself (no data available). |
| **Engineering controls** | No special requirements. Use local exhaust or ventilation during dust-generating processing. |
| **Personal protective equipment** | No special requirements for normal handling. For dust-generating processing, a dust mask, safety glasses, and protective gloves are recommended. |

## 9. Physical and Chemical Properties

| | |
|---|---|
| **Appearance** | Tile |
| **Physical state at 25°C** | Solid |
| **Color** | According to customer request |
| **Odor** | Odorless |
| **Flash point** | Not applicable |
| **Other properties** | No data available |

## 10. Stability and Reactivity

| | |
|---|---|
| **Stability** | Stable under normal conditions of use and storage. |
| **Conditions to avoid** | Avoid direct contact with heat, flame, or ignition sources. Do not expose to extreme temperatures for extended periods. |

| | |
|---|---|
| **Incompatible materials** | Strong oxidizing agents |
| **Hazardous decomposition products** | Carbon oxides (CO, CO2) and hydrogen chloride (HCl) may be generated on combustion. |
| **Note** | No solvents are used in the manufacturing process; however, contact with external organic solvents such as MEK or acetone may damage or swell the product surface. |

## 11. Toxicological Information

No data are available for the product itself. Based on its ingredients, no specific toxic effects are expected under normal conditions of use.

## 12. Ecological Information

| | |
|---|---|
| **Aquatic / terrestrial toxicity** | No data available |
| **Persistence and degradability** | No data available |
| **Bioaccumulative potential** | No data available |
| **Mobility in soil** | No data available |
| **Other adverse effects** | No data available |

## 13. Disposal Considerations

Dispose of in accordance with local, regional, national, and international regulations.

## 14. Transport Information

This product is not classified as dangerous goods for transport.

## 15. Regulatory Information

No special requirements.

## 16. Other Information

**Sources of information**
